

MX01 | Heavy Duty Aluminium Carpet Tile Ramp

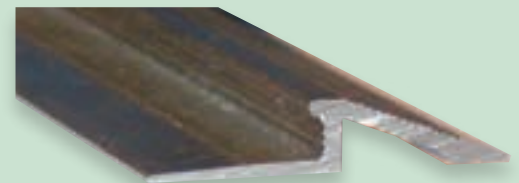

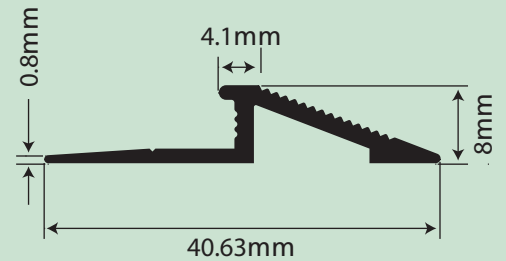

MX01 is designed to facilitate a robust, durable finish to the interface between carpet tiles and vinyl, or other lower hard surfaces.

MX01 is designed to withstand the rigours of high incidences of foot, or wheeled traffic.

In extreme conditions where constant heavy-wheeled traffic is encountered, it is recommended that a solid diminishing strip, such as MX68 Heavy Duty 5mm Diminishing Strip be used.

Product Specifications

Product Code:.....MX01
 Aluminium:..... 6063/T6 Hardness
 Overall Length:3.66 metres
 Horizontal Width:40.63mm
 Vertical Height:8mm
 Finish:..... Natural Mill
 Processing:..... N/A
 Pieces Per Carton:..... 10 Lengths

Installation Instructions

May be secured in place by drilling and counter-sinking the screw heads in a drill and plug installation. Where this method is used, it is recommended that a bead of silicone or mastic adhesive is run along both bottom length edges of the extrusion to fill in any surface variations of the concrete floor. This will remove any subsequent “tapping” effect that could develop, or

May be installed by using “MAXBOND SLS Fast Set Gripper and Metal Mouldings Adhesive”, or similar, applied as per manufacturer’s directions, to the underside of the construction joint, should a non-invasive fixing process be desired.
