

# MX03 | Aluminium Carpet Tile Edge

MX03 is designed to facilitate finishing carpet tiles to a lower adjoining floor surface while maintaining a minimalist visible surface.

The 5mm cavity edge of MX03 provides protection to the trimmed edge of carpet tiles or direct stuck carpets, while the heavily reinforced, ramped edge, resists impact from wheeled traffic.

## Product Specifications

Product Code:..... MX03  
Aluminium:..... 6063/T6 Hardness  
Overall Length: .....3.66m  
Horizontal Width: ..... 28.1mm  
Vertical Height: ..... 7.8mm  
Finish:..... Natural Mill  
Processing:..... N/A  
Pieces Per Carton:..... 10 Lengths

## Installation Instructions

May be secured in place by drilling and counter-sinking the screw heads in a drill and plug installation. Where this method is used, it is recommended that a bead of silicone or mastic adhesive is run along both bottom length edges of the extrusion to fill in any surface variations of the concrete floor. This will remove any subsequent “tapping” effect that could develop, or

May be installed by using “MAXBOND SLS Fast Set Gripper and Metal Mouldings Adhesive”, or similar, applied as per manufacturer’s directions, to the underside of the construction joint, should a non-invasive fixing process be desired.
