

MX47 | Carpet Tile Diminishing Strip

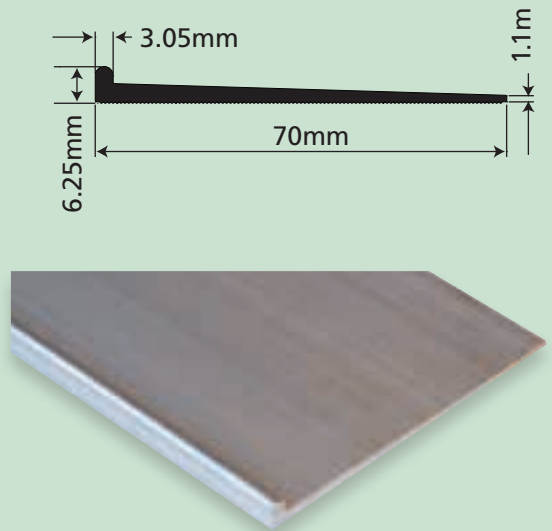

MX47 is designed for use in internal installations, where carpet tiles meet 3mm commercial vinyl tiles or sheetgoods.

MX47 is specified to withstand heavy traffic situations that may be encountered in retail, commercial, public areas, along with hospitals and aged care facilities.

MX47 meets the guidelines detailed in AS 1428.1.2009 for ramps.

Product Specifications

Product Code:.....MX47
 Aluminium:..... 6063/T6 Hardness
 Overall Length:3.66m
 Horizontal Width:70mm
 Vertical Height:6.25mm
 Finish:..... Natural Mill
 Processing:..... N/A
 Pieces Per Carton:..... 10 Lengths

Installation Instructions

May be contoured by cutting slots at regular intervals across the depth of the profile.

May be secured in place by drilling and counter-sinking the screw heads in a drill and plug installation. Where this method is used, it is recommended that a bead of silicone or mastic adhesive is run along the bottom length edges of the extrusion to fill in any surface variations of the hard flooring surface. This will remove any subsequent “tapping” effect that could develop, or

May be installed by using “MAXBOND SLS Fast Set Gripper and Metal Mouldings Adhesive”, or similar, applied as per manufacturer’s directions, to the underside of the construction joint, should a non-invasive fixing process be desired.
