

MX59 | 5mm Carpet Tile Diminishing Strip

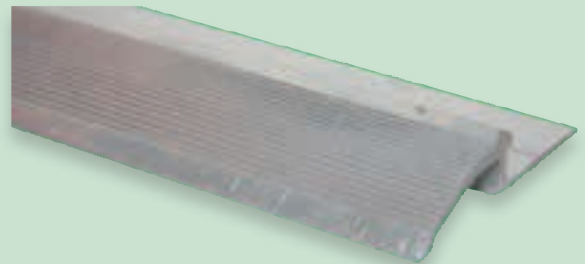

MX59 is designed to facilitate a clean and durable finish to the interface between carpet tiles and vinyl, or other lower, hard surfaces.

MX59 is specified to withstand the rigors of medium foot or wheeled traffic situations.

MX59 is designed for extreme foot traffic areas, or where constant wheeled traffic is encountered, it is recommend that a solid diminishing strip, such as MX68 Heavy Duty 5mm Diminishing Strip be used.

Product Specifications

Product Code:..... MX59
Aluminium: 6063/T6 Hardness
Overall Length:3.66m
Horizontal Width:40mm
Vertical Height:8mm
Finish: Natural Mill
Processing:..... N/A
Pieces Per Carton:..... 10 Lengths

Installation Instructions

May be secured in place by drilling and counter-sinking the screw heads in a drill and plug installation. Where this method is used, it is recommended that a bead of silicone or mastic adhesive is run along the bottom length edges of the extrusion to fill in any surface variations of the hard flooring surface. This will remove any subsequent “tapping” effect that could develop, or

May be installed by using “MAXBOND SLS Fast Set Gripper and Metal Mouldings Adhesive”, or similar, applied as per manufacturer’s directions, to the underside of the construction joint, should a non-invasive fixing process be desired.
