

MULTI-PURPOSE SECTIONS

**MT21
Multi-Base**

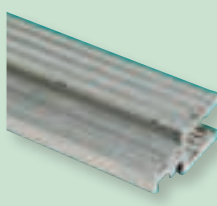

Used with conventionally installed carpet abutting ceramics or wooden floating floors.

**MT23
Contour-Base**

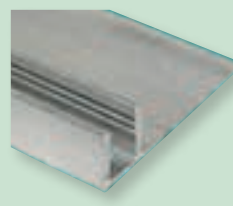

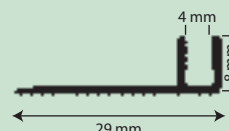

Used as per MT21, being slotted to allow forming of contours.

**MT26
Extension**

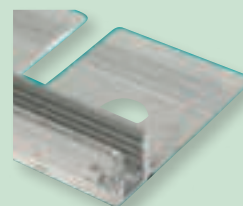

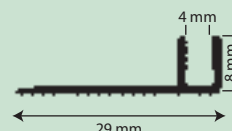

Used with Base/Trim to extend height to meet hard floors.

**MT22
Multi-Trim**

Used with stick down carpets or vinyl sheet abutting floors of greater height.

**MT24
Contour-Trim**

Used as per MT22, being slotted to allow forming of contours.

Punched Teeth:	✓	✓	—	—	—
Finish – Mill Silver	✓	✓	✓	✓	✓
Lengths Per Carton:	20	20	10	20	20

Installation Instructions

1. Measure and cut to required size.
2. For wooden sub-floors, Multi-Sections are recommended to be fixed by nailing with a ring-shank flooring nail regularly in the pre-formed holes (*MT21/MT23 only have holes pre-punched*).
3. For concrete sub-floors, Multi-Sections may be fixed by nailing with concrete flooring nail, drilling and plugging, or adhering by using products such as “MAXBOND SLS Fast Set Gripper and Metal Mouldings Adhesive”.
4. Where a higher hard surface abuts carpet or vinyl, the use of Multi-Extension Channel is recommended, simply line up above channel in Multi-Section and tap or press down until it locks in place.
5. Finish installation with the desired type of Edge Cap in the required colour.
