

MX29 | 80mm Aluminium Heavy Duty Coverstrip

MX29 is designed for use in internal installations, where flooring of different types and heights meet with maximum height variations not exceeding 10mm as required under AS1428. 1-2009 Design for Access and Mobility, and the Building Code of Australia.

MX29 has been specified with a heavy duty anodised finish to provide a high degree of resistance to retail/commercial pedestrian traffic levels.

Product Specifications

Product Code:..... MX29
Aluminium:..... 6063/T6
Overall Length:3.66m
Horizontal Width:80mm
Vertical Height: 4.1mm
Finish: 20µm Matte Natural Anodised
Processing:..... Drilled and Countersunk
(Screws and Plugs Supplied)
Pieces Per Carton:..... 10 Lengths

Installation Instructions

MX29 is to be secured in place by drill and plug method using the supplied stainless steel screws and plugs.

It is recommended that a bead of silicone or Max-Bond SLS Fast Set Gripper and Metal Moulding Adhesive is run along both bottom edges of the 80mm Coverstrip to fill any surface variations on hard/resilient flooring surfaces. This will remove any subsequent "tapping" effect that could develop.
