Item Code	Description	VOC g/Lt	SCAQMD Product Type
238953	Anchorweld 2701 Super Clear 20L	500	Special Purpose Contact

VOC
DATA SHEET

Unless otherwise stated, the TVOC is based on theoretical calculations of the subtotal of the known VOC values of the product's raw material components. Where the TVOC content of individual components was not known, these have been determined experimentally as outlined under SCAQMD Method 304-91 or ASTM D3960

John Moses
Technical Director

Note:

For any further enquires contact Bostik on (03) 9279 9333 or voc@bostik.com. A VOC level of '0' is a true value. The VOC level of a product which may be available in a range of colours may vary depending on the colour.
