Overall Length:.....3.66m
Horizontal Width:.....40.75mm
Vertical Height:.....30.75mm
Finish:.....Matte Bronze
Processing:.....N/A
Pieces Per Carton:.....10 Lengths

MX30B is deemed to satisfy the requirements and recommendations of the The Building Code of Australia, and applicable Australian Standards.

Installation Instructions

May be secured in place by drilling and counter-sinking the screw heads in a drill and plug installation. Where this method is used, it is recommended that a bead of silicone or mastic adhesive is run along the underside edges of the extrusion to fill in any surface variations of the concrete floor. This will remove any subsequent "tapping" effect that could develop, or

May be installed by using "MAXBOND SLS Fast Set Gripper and Metal Mouldings Adhesive", or similar, applied as per manufacturer's directions, to the underside of the construction joint, should a non-invasive fixing process be desired.
